

Situation

In March 2020, during the Covid 19 pandemic, you've decided to launch your own customised, eco-friendly face masks start up. With your sales team, prepare your meeting with the mayor of a British town who wants to help you and provide all his employees as well as the school pupils and staff with face masks.

Prepare your arguments and discuss with your team about the potential targets, positive image and advertising for the town.

Consider the following elements: The mayor is worried about the :

- *environmental impact of face masks
- *comfort and quality
- *cost for his company
- *the delivery time
- *the media impact

Make it yours - Custom it
