Melbourne, Ecocity World Summit

- 5 In July 2017, Melbourne will host the Ecocity World Summit. Our focus will be *Changing Cities: Resilience and Transformations*, highlighting the need to deploy expert knowledge – academic, professional, civic – to make cities resilient in the face of rapid change. Melbourne has been lauded as the world's most liveable city, but it is not immune to the challenges facing all cities. The Ecocity World Summit 2017 will harness the expertise and develop the networks needed to create a world of ecocities.

Meet America's super polluters

- 5 EVANSVILLE, Ind. — To see one of the country's largest coal-fired power plants, head northwest from this Ohio River city. Or east, because there's another in the region. In fact, nearly every direction you go will take you to a coal plant — seven within 30 miles.
- 5 Collectively they pump out millions of pounds of toxic air pollution. Industrial air pollution — bad for people's health, bad for the planet — is strikingly concentrated in America among a small number of facilities like those in southwest Indiana, according to a nine-month Center for Public Integrity investigation.
