Documents A and B

Tous les candidats traitent les questions M et N.

M. The parents all come from foreign countries. Their influence on their children differs:

- In Document A, Amanda's parents sent her to discover their country. She did not have a choice because it was part of a family tradition.
- In Document B, the parents have no problem with their children's choice to visit their country. However, at the same time, they disapprove of / object to their children's decisions to settle there / to start a new life in India. Despite their parents' negative opinion about going back to their country, Neel Shah and Raghu Kumar go anyway.

N. In both texts, all three people have been changed by their experience abroad, but in different ways: Amanda's experience involves others, whereas Neel seems to be more individualistic.

- Amanda learnt a lot / the trip she went on opened her mind / changed the value she gave to material things.
- She realized she did not need much to lead a fulfilling life.
- She learnt to appreciate spending time with people: sharing / exchanging with others.
- The trip encouraged her to travel more and study abroad.

Document B:

- The trip changed the idea they had of their parents' native country.
- India was previously seen as a country where it was more difficult to succeed / where prospects were grim, for them it has become a land of economic opportunity.
- Raghu saw that his Indian culture combined with his American values made him successful in India.
